

AVIATION NEWS

AUGUST 2020

Rotor Wing

As I am sure everyone has seen, there are a bunch of new aircraft in the helicopter fleet. These include 3 new Robinsons (1 additional cadet will be delivered in October), a Bell 505 and the BO105.

The Robinson helicopters will help with an increased student load in the fall. The Bell 505 will be utilized during the mountain/turbine transition portion of the commercial lab. The 505 is Bell's newest helicopter. It boasts a G1000 all glass instrument panel, a FADEC controlled engine and a very open feeling cockpit. The BO105 will be used for corporate training.

We are excited to have these new additions. If you haven't seen them yet, stop by and check them out. Keep up the good work and fly safe.

Aviation Advising

I hope you've had a great summer semester. Have a nice break and be ready to rock Fall!

Please let me know via email or appointment if you have any questions or need help with anything. If you only have a couple of semesters before finishing your degree, please see me to do a GRAD CHECK.

Thank you for being such a great part of SUU's Aviation program.

Ryan Avery ryanavery20@suu.edu

SUU Aviation Career Fair

Oct. 8th / 2-4PM
Opened to SUU Aviation Instructors and Students

More details to follow as the dates near. Flyers will be posted throughout the hangars!

Aviation Financial Aid

If you still need to figure out funding for the 2020-2021 academic year, book an appointment with me to talk about options. You can book an appointment through romanickjocelyn.youcanbook.me. Fall 2020 semester balance is due September 9th in full, or you need to be signed up for a payment plan.

Keep your eye out for details from your federal student loan servicer about continued Student Loan Payment Relief, which "...provide(s) such deferments to borrowers as necessary to continue the temporary cessation of payments and the waiver of all interest on student loans held by the Department of Education until December 31, 2020. All persons who wish to continue making student loan payments shall be allowed to do so, notwithstanding the deferments.." This also applies to federal loans taken out for this Fall 2020 semester.

Concurrent Enrollment

Welcome to the 20/21 school year. High School Concurrent Enrollment classes are available. You can get started learning Aircraft Systems and Aviation Orientation this fall and Air Transportation in the spring. These classes go towards the degree and are transferable. Meet with your high school counselor to sign up. It's going to be a great year!!

Maintenance Team

Hello everyone, welcome back! We have some exciting new aircraft to fly. Please help our instructors take care of them. We are proud to get to maintain this beautiful fleet for our students. As always, safety first. When in doubt, refer to the manual, and watch out for the dangerous spinny things while on the ramp.
