SUBJECT: SOUTHERN UTAH UNIVERSITY (SUU) DEPARTMENT OF NURSING

Welcome to Baccalaureate Nursing at Southern Utah University! Your educational experience will be challenging and bring you many opportunities to increase your knowledge and develop your skills.

The faculty and staff are pleased to be able to learn and grow with you. I encourage you to fully engage in the reading, course work and clinical experiences provided to you while in this program. If you commit to full participation you will graduate with a strong foundation that will serve you well throughout your professional life.

This Student Nurse Policy Handbook was developed to assist you in understanding your role and responsibilities in the SUU Nursing Program. The handbook is a resource that complements university student policies. The Department of Nursing student handbook provides nursing- specific policies that clarify policies in the SUU General Catalog www.suu.edu/academics/catalog and the SUU Student Handbook <http://help.suu.edu/handbook/>.

This handbook contains essential information about your role and responsibilities in the program. Nursing faculty and staff utilize the handbook as a guide in making decisions when questions arise. The handbook should be reviewed frequently for updates; you are held accountable for the most recent policies and procedures. In addition, this handbook contains other useful information such as suggestions for coping with stress and achieving success in nursing school.

Other resources important to role development as a nurse are *AACN's The Essentials: Core Competencies for Professional Nursing Education*, *ANA's Standards of Clinical Nursing Practice*, *ANA's Code of Ethics for Nurses* and *ANA's Social Policy Statement*. These documents form the foundation of the nursing curriculum. Concepts from these four documents are used to design meaningful course and clinical experiences.

Once again, welcome! We are glad you are a part of SUU Nursing. Your success will be determined by your commitment to learning. We are committed to facilitating that success.

SUBJECT: HISTORICAL BACKGROUND: DEPARTMENT OF NURSING

Introduction to Southern Utah University

Welcome to Southern Utah University in Cedar City, Utah — located among five breathtaking national parks — where learning is our primary focus. What you learn and experience while obtaining your degree will affect you — and those around you — for the rest of your life.

SUU was launched over 115 years ago. The story of how this institution began is inspirational; I encourage you to read our fascinating history, or view the historical re-enactment, [Back Up The Mountain](#). The spirit of the founders of SUU to support education and to foster student success remains evident even on today's campus. At SUU students are our first priority in all that we do.

Explore the numerous and diverse majors offered through our seven outstanding colleges and schools. There are more than 85 undergraduate programs at the associates and bachelor degree levels. SUU also offers several graduate programs. All of Southern Utah University's programs are fully accredited.

At SUU, we're interested in contributing to your character as well as your intellect. Besides the excellent personalized training you will receive in the classroom with an 18:1 student/faculty ratio, we have some of the most enriching, extracurricular activities, including a roster of nearly 100 clubs and organizations, the Utah Summer Games and the Utah Shakespeare Festival. SUU is the region's cultural center.

For all of these reasons, and many more, a degree from SUU is a valuable investment in your future. Our graduates enjoy a 94 percent job placement rate, and 87 percent of them are working in the field of their choice. We are driven to fulfill the charge in our Vision Statement — that is, to "promote personalized learning, and academic integrity (to) enable students and graduates to honor thought in all its finest forms and to excel in life."

<https://www.suu.edu/president/>

We look forward to being part of your success!

School Colors: Red, Black, White & Gray **Mascot:** Thunderbird

Introduction to the Baccalaureate Nursing Program

The Southern Utah University Department of Nursing established a baccalaureate nursing program in 2004. The first student class was admitted in August, 2004. The SUU Nursing Program was accredited by the Commission on Collegiate Nursing Education in April of 2006 with a reaffirmation of accreditation in 2011 and 2020. From the beginning, the nursing program has prided itself on meeting the regional health care needs of Southern Utah through personalized, quality education provided by qualified, dedicated, and supportive faculty and staff.

The SUU Bachelor of Science in Nursing (BSN) curriculum prepares students for generalist positions in professional nursing practice. Graduates are prepared to provide nursing care across the lifespan to culturally diverse individuals and groups.

The program has several options for students. The pre-licensure baccalaureate degree for students with no previous nursing degree. These students are admitted fall and spring semesters. The Health Professional (HP) to BSN program is for students with an LPN license, paramedic certificate, etc. These students are admitted once a year, summer semester. The RN to BSN, for associate/diploma degree registered nurses seeking a baccalaureate nursing degree; this is a fully on-line program with rolling acceptance.

The Pre Licensure BSN curriculum includes two phases: first, completion of general education core and required support courses; second, nursing course work consisting of classroom, laboratory, and clinical practice experiences. Similarly, the HP to BSN curriculum has three phases; completion of general education; completion of LPN, Paramedic certification, etc. (may be completed before or after general ed. classes) and then nursing course work.

Upon completion of the pre-licensure or HP to BSN program and passing the NCLEX-RN, graduates are eligible to apply for licensure as a registered nurses. The BSN degree provides flexibility in career choices as well as a foundation for continued formal study in graduate programs. Alumni have opportunities in hospitals, health departments, correctional facilities, home health, long-term care, educational institutions, and multiple other options, including international experience.

SUBJECT: VISION, MISSION, GOALS AND PROGRAM OUTCOMES OF SUU DEPARTMENT OF NURSING

I. Vision

The Southern Utah University (SUU) Department of Nursing will be a *nationally recognized* Baccalaureate Nursing Program, providing quality innovative nursing education that efficiently and effectively meets the needs of students and the regional community.

II. Mission

The Department of Nursing is made up of academic programs that prepare individuals for professional nursing practice. A Bachelor of Science in Nursing is recommended for students preparing for entry into nursing practice. We offer a learning-centered education that meets the requirements for a baccalaureate degree at SUU and ensures that graduates have the abilities to be successful, *excellent*, professional nurses. The purpose of the Department of Nursing is to provide learning opportunities that engage students in a comprehensive program of classroom and experiential learning that emphasizes caring, critical thinking, patient safety, ethical decision making, communication, civic responsibility and professional excellence.

III. Goals

The observable, measurable goals of the Department of Nursing and our outcomes by which we will accomplish them are:

- **To prepare graduates to successfully enter professional nursing practice and graduate school** by offering well-planned and pedagogically sound learning experiences that explore diverse cultures and ideas. Courses are focused on authentic, meaningful engagements that develop skills in analysis, critical thinking, problem solving, and ethical decision making.
- **To develop technically proficient nurses** by offering students hands-on experiences with state-of-the-art health care equipment, one-on-one instructional experiences and varied hands-on clinical practicum opportunities that include intentional and transformative learning experiences.
- **To excel in its commitment to high-quality outcomes and student achievements** by supporting faculty members as health care professionals. Faculty will demonstrate excellence in teaching, scholarly endeavors, practice, and professional community service and provide leadership in nursing practice by fostering good teaching, encouraging participation in clinical practice, professional service, and scholarly engagement.

Student Learning Outcomes

Upon completion of the Southern Utah University Baccalaureate Nursing Program, graduates will be able to do the following:

1. Provide quality professional nursing care based on a synthesis of theoretical and empirical knowledge from nursing, physical and social sciences, arts and humanities, and life experiences.
2. Use evidence as the basis for clinically competent contemporary nursing care.
3. Communicate effectively using various means in a variety of roles and settings.

SUBJECT: VISION, MISSION, GOALS AND PROGRAM OUTCOMES OF SUU DEPARTMENT OF NURSING

4. Optimize health care to diverse individuals, families, groups and communities through collaboration with interdisciplinary health care teams.
5. Demonstrate intellectual curiosity, critical thinking, and motivation toward life-long learning.
6. Influence the quality of nursing and health care using leadership skills, management concepts, and a knowledge of the political system.
7. Be legally and ethically accountable for clinical nursing practice.
8. Assume the role of generalist nurse and become a responsible member of the profession.

SUBJECT: ORGANIZATIONAL STRUCTURE, DEPARTMENT OF NURSING

I. Chair of the Department: The Department of Nursing Chair is directly responsible for administrative interface with faculty and departmental programs and with lines of authority from the Dean through central administration. Department assignments requiring departmental level action automatically go to the department chair.

REFERENCES: SUU Policy and Procedures, 6.2, Academic Officers

- a. Standing Committees.** Standing Committees are permanent committees created to accomplish department goals.
 - i. Level Work Groups:** Consists of all faculty who teach any course in any given level/co-hort. The lab Specialist serves as resource when invited. Level Work Groups ensure smooth functioning, coordination, and implementation of each level of the curriculum. The level group meets a minimum of two times per semester and is headed by a faculty member (Level Coordinator) selected by the group. Every faculty member who teaches on the level is a member of the level work group.
 - ii. Level Coordinating Council:** The Level Coordinating Council (LCC), consisting of the department chair and level coordinators (or may include all faculty), ensures smooth functioning, coordination, and implementation of the curriculum within and between levels. The committee meets at least once a semester and is headed by the department chair.
 - 1. Responsibilities Include:**
 - a.** Admission and Advancement Committee meeting for selection of students and to address admission and advancement needs and other times as deemed necessary by faculty or chair.
- b. Department Meetings**
 - i.** Assure that department engages in annual curriculum review and analysis, receive reports of such analyses, and make recommendations to faculty. Headed by Curriculum Committee Chair.
 - ii.** Assure that all components of the curriculum adhere to the standards and policies of the American Association of Colleges of Nursing.
 - iii.** Serve as the Policies and Procedures Committee; ensuring smooth coordination, writing, approval, and implementation of the policies of the Department of Nursing.
 - iv.** Implement review and development of new and/or improvement of existing courses and other elements of the curriculum.
 - v.** Receive and act on curriculum and program proposals submitted by other committees and faculty members.
 - vi.** Conduct annual reviews and analysis of data concerning program function and outcomes.
- c. Ad Hoc Committees:** Ad Hoc Committees are temporary committees created to accomplish department goals or to focus on examining a specific subject. Most are created with a deadline by which they must complete their work, or expire.

SUBJECT: ORGANIZATIONAL STRUCTURE, DEPARTMENT OF NURSING

- II. Faculty:** SUU Department of Nursing Faculty is an academic employment status for those persons who have responsibility for the conduct of approved nursing courses, scholarship and service activities for the Department.
- III. Advisory Board:** The Department of Nursing Advisory Board meets at least annually to provide a forum for direct communication between the department and stakeholders. The advisory board serves to keep the community informed of department activities and provide community and stakeholder input to the department.
- 1. Definition of Community of Interest:** The following groups and individuals have an interest in the mission, goals, and expected outcomes of the SUU Department of Nursing and our effectiveness in achieving them:
- a. Internal Stakeholders:** Current nursing students; SUU Department of Nursing faculty, staff, and administrators; SUU community.
 - b. External stakeholders:** Prospective students; alumni; community members served by alumni; contracted health care agencies; employers of alumni; Utah State Board of Nursing; Department of Nursing Advisory Board.

SOUTHERN UTAH UNIVERSITY
Department of Nursing
Policy and Procedures

Policy # 4.00
Date Originated: 5/7/2007
Date Reviewed: 7/2020
Date Approved: 8/10/2010
Date Revised: 7/28/2020

SUBJECT: FINANCIAL ASSISTANCE

Southern Utah University's Nursing Program offers several opportunities for scholarships. The Nursing Administrative Assistant can guide students through the process. General scholarship information at SUU is available on the internet. (<http://www.suu.edu/ss/financial/scholarships.html>) Financial Aid at SUU offers several types of financial assistance to students. (<http://www.suu.edu/ss/financial/>). The SUU/SNA officers can provide you with information about scholarships through the student nurses association.

SUBJECT: LATE ASSIGNMENTS

Papers/assignments are due at the time designated by faculty. If you know you will miss a class in advance of the due date submit materials early or ask a colleague to submit on the due date. With unforeseen circumstances, you may not be able to submit an assignment on the designated due date. It is your responsibility to notify the instructor and negotiate a reasonable alternate due date. *Faculty members retain the option of not accepting late papers/assignments and may deduct points for late work. Individual faculty members maintain final determination in situations related to late work.*

SUBJECT: MAKE-UP WORK

Clinical: All missed clinical experiences must be made up. Individual clinical faculty will schedule the necessary times and experiences. *At no time are students to complete a clinical experience without the knowledge and supervision of clinical faculty members.*

Didactic: Make-up work for extra credit or in place of missed assignments for theory classes *is at the discretion of each faculty member.*

SUBJECT: ADA STATEMENT

Students with medical, psychological, learning or other disabilities desiring academic adjustments, accommodations or auxiliary aids will need to contact the Southern Utah University Coordinator of Services for Students with Disabilities (SSD), in Room 206 of the Sharwan Smith Center or phone (435) 865-8235. SSD determines eligibility for and authorizes the provision of services.

The Department of Nursing strictly follows SUU Policy 11.9, Accommodations for Students with Disabilities (<https://www.suu.edu/studentaffairs/ada.html>).

SUBJECT: Ceremony/class fundraiser policy change

Prelicensure Level 3 and HP Level 3 students are no longer doing a custom print (swag/gear) class fundraiser to use towards their Pinning Ceremony. The DoN will standardize Pinning and Pledge Ceremonies to minimize costs. Costs can be funded by the Department since they will be minimal.

Standardized Pledge Ceremony:

One Video Presentation, Choice of Cupcakes (per form) and water for refreshments (if pricing changes for the cupcakes we will go back to sheet cakes), Class Committee will design invitation and program (to be approved by one faculty member and one staff member), Department will print using the resources available in the Department and/or Print Shop on Campus. Program shouldn't exceed one hour.

Standardized Pinning Ceremony:

One Video Presentation, No Refreshments, Class will design invitation and program (to be approved by one faculty member and one staff member), Department will print invitation using the resources available in the Department and/or Print Shop on Campus. Students can use their print account/balance for the programs. Department to provide one PST Certificate per graduate and one Graduation Stole per graduate (stole will replace the roses). Pins will be attached to the Stole (no need for ribbons or corsage pins). Department will print one 8x10 graduation class picture to use at pinning and in the office. Program shouldn't exceed one hour. Any parties and or meals/celebrations will be the responsibility of the class and not the Department.

SUBJECT: MANDATORY

The nursing department schedules student events for which attendance is mandatory. These events include opening celebration, each semester for all students. Hurst Review for the HP and Pre-Licensure Level 4 students is also a mandatory event. Prior to the event, students must submit a written request to the department chair asking to be excused. Valid reasons for excusal may include a family death or presence of contagious illness. Non-valid reasons for excusal are conflicting work schedules or family vacations. The department chair will consider each request on an individual basis. Students whose requests are deemed valid will be notified that they are excused. Students whose requests are deemed not valid will be notified that they are not excused. A clinical point will be issued to any student who is not present at a mandatory event and has not been excused.

SOUTHERN UTAH UNIVERSITY
Department of Nursing
Policy and Procedures

Policy # 5.01
Date Originated: 8/24/2004
Date Reviewed: 7/2020
Date Amended: 07/28/2020

SUBJECT: Student Use of Equipment, Supplies, Copies, Printer

- I. **PURPOSE:** To set boundaries and establish criteria for student use of Department of Nursing equipment and supplies. These include but are not limited to workroom (SCA 108p) and supplies within, conference room (SCA 108o) and supplies within, microwaves, computers, laptops, projector, copy machine, printers, etc.

- II. **POLICY:** The copy machine(s) in the nursing office is for Department of Nursing faculty and staff use only. Student copies for presentations must be approved by the appropriate faculty member by the faculty's signature on the *Office Work Request Form*. This form will be submitted to the office staff a minimum of 48 hours prior to the time needed. Student copies for homework assignments, study guides, etc. will not be copied or printed by the Department of Nursing. Students are not to operate any copy machine at any time for any reason.

Students are not to use the Workroom and Conference room appliances or supplies without permission from a staff member. Students are encouraged to use the microwave in SCA 011 as it has been provided for student use.

Student use of any equipment must be coordinated through the program manager using the *Office Work Request Form*, signed by the appropriate faculty and submitted a minimum of 48 hours prior to the date needed.

Students have 200 pages of printing available per semester through SUU. For students to utilize their printing pages account, they need to visit any open lab on campus (ELC, library, etc.) <https://labuse.suu.edu/>.

Student use of classrooms or conference rooms anywhere on campus, for any reason (study groups, meetings, ceremonies, etc.), needs to be coordinated through the program manager using the *Scheduling Request Form*. Due to scheduling policies on campus this is ideally done at least two (2) weeks prior to event.

NOTE: Forms are available in the appendix of the Student Handbook or from office staff.

SUBJECT: SCA 011 Nursing Computer Lab & Classroom

- I. **PURPOSE:** To set boundaries and establish criteria for the Department of Nursing Computer Lab (SCA 011).
- II. **POLICY:** The Department of Nursing has established a 42-Laptop Computer Lab, located in SCA 011, for proctored computer testing for the nursing student.

Computers are to be stored in a locked storage cart when not in use. Computers will be brought out for proctored testing and classroom use only. Tests proctored outside of the class-time, will be scheduled with the Administrative Assistant.

Normal computer etiquette will be followed, with no food or drink on or around computers, while they are in use.

A “Computer Lab Start-Up Process” card will be posted on the Teacher Station:

- ⇒ No Food or Drinks!
- ⇒ Bring 90% or better practice test score for admission to ATI exams.
- ⇒ Test will start on time. Late students will NOT be admitted.
- ⇒ Leave backpacks at front of room or where directed by proctor.
- ⇒ For ATI tests - Mozilla Firefox must be used!
- ⇒ Log-in to computers with your SUU User Name and Password. Type over any user name shown on screen.
- ⇒ Be respectful of other testers - leave quietly.
- ⇒ Do not discuss the test.
- ⇒ All cell phones, smart watches, electronics, etc. need to be turned OFF and left in backpacks at front of room until test is completed. Absolutely NO use of cell phone/electronics on breaks or during exam!

Any computer issues and/or malfunction, please contact Nursing Administrative Assistant first, then Computer Help Desk.

On days when there are multiple tests, the last proctor of the day will be in charge of putting computers back in the cart. This includes plugging power and internet cables into computers in the cabinet and ensuring the cart is locked.

Power plugs and external mice are available in the labeled drawers under the microwave.

SCA 011, also serves as a regular classroom and SUUSNA storage area. Students need to be courteous of any testing posted and not enter during testing or class time.

Although there is a microwave in SCA 011, available for student use, students are not to enter during any class or testing time. Clean up all messes. Cleaning supplies are available in the marked cabinet above the sink.

Faculty are to reinforce appropriate, professional, behaviors of students using the classroom/lab.

SUBJECT: Unusual Occurrence/ Potential Pathogen Exposure Risk Policy

Student – Unusual Occurrence/Exposure Risk

In the event of an unusual occurrence or possible exposure to blood or body fluids or other potential pathogens the student shall notify the supervising faculty member immediately.

The supervising clinical faculty member shall immediately, upon notification, discuss the incident with the involved student(s) to review the incident. If there is a risk of exposure to blood borne pathogens the student will be advised to first, assure that the exposure has been cleansed with soap and water (for a needle stick), or flush eyes, nose or mouth with copious amounts of tap water (for 20 minutes). Faculty member will then facilitate completion of appropriate forms and a medical evaluation. Any injury sustained by the student while participating in Department of Nursing activities and subsequent medical treatment, with all costs associated with care will be the student's responsibility. Faculty will encourage a medical evaluation with appropriate testing and follow-up including at least the following elements:

- (1) To be in compliance with clinical partner policies, a blood exposure will require an immediate baseline titer for Hepatitis B, unless the exposed student has a blood test with "reactive results or (6) six Hepatitis B vaccinations with blood test results of "Not-Reactive" or "Non-responder".
- (2) Documentation of the unusual occurrence and/or routes of exposure, and the circumstances of the unusual occurrence/exposure.
- (3) Identification and completion of forms and procedures required by the facility where the incident occurred.
- (4) Completion of SUU Department of Nursing forms (located in appendix).
 - a. Unusual Occurrence/Exposure form
 - b. Post-Exposure follow up form (if an exposure)
- (5) In the case of exposure, identification of the source individual, unless not feasible or prohibited by law. (Faculty member will need to work with the nursing staff and policies in the agency or facility where exposure occurred to facilitate this step.)
 - a. Seek to determine the source individual's HBV and HIV status.
 - b. Results of the source individual's testing shall be made available to the exposed student with information about confidentiality and identity protection laws.
- (6) Assistance to student to see their private care provider, an Instacare facility, or ER, ASAP with instructions to get tests for exposure to blood borne pathogens.
- (7) Inform department chair of incident and follow up ASAP. Submit SUU Department of Nursing forms to department chair within 24 hours of notification.
- (8) If the occurrence takes place on SUU campus (i.e. the SN learning lab) a copy of the form will be submitted to the lab specialist who will maintain a sharps/incident occurrence log for on campus events.

SOUTHERN UTAH UNIVERSITY
Department of Nursing
Policy and Procedures

Policy # 5.02
Date Originated: 10/2004
Date Reviewed: 7/2020
Date Amended: 6/22/2017

SUBJECT: Unusual Occurrence/ Potential Pathogen Exposure Risk Policy

Faculty/Staff/Student Employee Unusual Occurrence/Blood Borne Pathogen Exposure Risk

In the event of an unusual occurrence or possible exposure to blood or body fluids, during any clinical experience, the faculty or staff employee involved will report directly to Human Resources on SUU campus.

In addition to forms and procedures initiated by Human Resources, faculty/staff and student employees should inform department chair of incident and follow up.

If the occurrence takes place on SUU campus (i.e. the SN learning lab) a copy of the form will be submitted to the lab specialist who will maintain a sharps/incident occurrence log for on campus events.

SUBJECT: LEARNING LAB POLICY

POLICY

The purpose of this policy is to provide general guidelines of safety and use of the Learning Lab (LL). The Department of Nursing (DON) provides learning opportunities in the Learning Lab to practice the RN role in a safe environment.

- Nursing students are expected to perform activities in a safe and professional manner; the same quality performance as if the student was at a clinical site.
- This policy will be reviewed annually by the DON faculty in the final meetings of the academic year and revised as needed through each academic year.

METHODS OF LEARNING

- Autotutorial: defined as a learning method whereby students are self-motivated, active learners taking initiative for their own learning by organizing time and resources to complete activities outlined in course syllabus.
- Demonstration / Return Demonstration: defined as a learning method whereby students are able to see expert demonstration of skill/practice and then demonstrate proficient execution of skill.
- Peer Mentoring: defined as learning through guided activity/learning provided by student peers that have been selected by DON faculty.
- Simulation: defined as an educational strategy in which conditions are created to resemble authentic situations that are possible in real life. Simulation experiences allow participants to develop or enhance knowledge, skills and/or attitudes and provide an opportunity to analyze and respond to realistic situations in a simulated environment.
- Validation: defined as an evaluation activity where student skills and clinical decision-making abilities are assessed by faculty with regard to meeting standards and criteria for course and program outcomes.
- Debriefing: defined as an activity that is post validation or simulation, guided by a faculty facilitator. Involves evaluator feedback regarding participants' performance and includes student reflection.

The Learning Lab (SCA 103/104) environment allows flexibility, within guidelines set forth by faculty in respective clinical courses; to accommodate individual learner styles, preferences, and timeframes.

Clear criteria, adequate preparation, and skills practice, followed by faculty assessment of competence, ensures students learn not only technical skills but also the role of the registered nurse in the performance, delegation, and supervision of skills.

Individual student learning will be accommodated through students, faculty and staff working together. Methods of learning for each course will be defined within individual course syllabi.

LEARNING LAB SCHEDULES

- Open practice labs will be coordinated by faculty and/or lab specialist to ensure students have quality practice time.
- Closed Lab is defined as the unavailability of the Learning Lab except for a designated course that has a scheduled activity, facilitated by faculty. Students involved in that course have priority to the lab.
- DON faculty and lab specialist will coordinate use of the Learning Lab with DON program manager to maintain a master schedule. The schedule is posted each semester electronically on the nursing website and hard copies placed on the Learning Lab bulletin board.
- Requests for use of the Learning Lab from **outside of the DON** may be scheduled through faculty/lab specialist and program manager, if there is no conflict with scheduled nursing activities. The lab specialist or other designated DON representative will be physically present in the department of nursing throughout the time period that the Learning Lab is utilized to assure safe and professional conduct.

SUBJECT: LEARNING LAB POLICY

LEARNING LAB EQUIPMENT

- Individual faculty members are responsible for proper use of props and equipment within their respective courses. The Lab Specialist should be notified of any worn or malfunctioning equipment.
- Course syllabi will address student utilization of equipment (for example check-out, maintenance, etc.) All equipment checked out by students will be returned prior to end of the semester.
- References (Textbooks, handbooks, etc.) located in the Learning Lab are considered 'on reserve' for use in the Learning Lab, nursing classroom and/or in close proximity to the department of nursing.
- Hard copy reference materials used in the Learning Lab are approved by course faculty. Learning Lab computers are utilized as a resource for reference materials. Reference materials reflect current practice.
- All equipment and supplies in the Learning Lab are considered property of the DON.
- Faculty/Lab Specialist are responsible to document Learning Lab equipment checked-out for use outside of department of nursing and/or overnight; record on clipboard in Learning Lab 103. Faculty may review list of equipment available for checkout in DON Shared Drive>Learning Lab folder.
- Faculty/Lab Specialist are responsible for returning materials to the lab/storage area which have been used in areas outside of the lab.
- Requests for new equipment are discussed by faculty during Level meetings then items are added to DON ongoing Equipment Wish List. Annual durable equipment purchases are prioritized by faculty from wish list and submitted to DON chair for approval to purchase.
- An electronic working inventory of all equipment/supplies will be maintained by the lab specialist.

PROCEDURES

Safety

- Students will comply with University protocols for Safety on campus
<https://www.suu.edu/safety/> <https://www.suu.edu/ad/em/pdf/campus-emergency-procedures.pdf>
<https://www.suu.edu/coronavirus/>
- All student nurses, faculty and professional staff will complete annual DON safety training to encompass safe practice in the Learning Lab and clinical settings and review SUU DON Exposure Control Plan.
- Students, Faculty and Staff will participate in frequent cleaning and disinfecting of surfaces and equipment.
- Participants in the Learning Lab should apply safety and OSHA Standards in all activities to avoid accidents, injury and illness. Participants will handwash with soap and water for 20 seconds upon entry to Learning Lab, prior to 'hands on' experiences. Repeat hand hygiene frequently as appropriate with hand sanitizer or soap and water.
- Food and drinks are to be avoided at immediate bedside stations, medication stations/carts, computers, or during validations.
- Invasive procedures on a consenting person are not allowed WITHOUT the direct supervision of faculty or lab specialist
- If a student is involved in an unusual occurrence/incident during any Learning Lab activity, he/she should notify faculty and/or lab specialist immediately. Examples of incidents include but are not limited to: sharps injury, falls, pathogen exposure, allergic-type reaction.
- Faculty/Lab Specialist/Students are responsible for safeguarding equipment and the lab environment.

SUBJECT: LEARNING LAB POLICY

- Simulated medications and medication labels are used in the Learning Lab. Faculty/lab specialist create labels and utilize marketed products like *Demo Dose^R*. Real medications are not housed in the Learning Lab except for Normal Saline (NS) products used for live IV starts and live injections (*Carpject* NS, NS flush syringes, NS vials) and expired IV infusion bags donated from various health care agencies.
- Students enrolled in the nursing program and individuals approved by nursing faculty may be allowed to be in Learning Lab. Examples of approved individuals include but are not limited to: guest presenters, patient actors, family of students with faculty supervision, children and adults for assessment demonstration, etc.
- HIPPA guidelines will be followed in reference to patient identifiers on donated equipment to the learning lab.

Learning Lab Practice & Validation Attire

- Students should wear comfortable clothing that is appropriate and functional similar to expectations when in a clinical setting. The SUU student uniform may be required depending upon individual course requirements.
- Individual variances / allowances in attire may be made by course faculty.

Professional Integrity

- It is unacceptable behavior for students to copy, give or receive illicit help on assignments and quizzes.
- Students may not discuss validation scenarios or skills performed.
- Learning labs and computers are to be used for nursing department related activities.

VALIDATIONS/SIMULATIONS**Expectations of Student Performance**

- Only students or faculty approved individuals who are a part of the LL experience are allowed in the Learning Lab during the validation/simulation activity.
- Students should plan to sign-up based on the schedule in course syllabi.
- To prepare for a successful validation/simulation, students are responsible for reading performance criteria and general instructions, located in course syllabus and/or on CANVAS.
- Students should clarify any criteria for grading of a validation/simulation with course faculty prior to the experience.
- Students are responsible to follow the course instructions for proper attire during validation/simulation.
- Student use of notes during simulation/validation is at the discretion of individual faculty and/or clarified in course syllabi and/or in LL experience instructions.
- When paired/grouped with classmates for validation/simulation; effective & respectful communication techniques and health care team collaboration will be utilized.
- When a Learning Lab activity includes an invasive procedure (for example, IM injection or IV start) on a live person, a consent form is signed by person prior to the procedure.

SUBJECT: LEARNING LAB POLICY

Faculty Role / Expectations

- The roles of the faculty validator are facilitation, observation and evaluation.
- Prebriefing instructions will be provided prior to validation/simulation by course faculty.
- Debriefing will occur immediately following validation. Students will be informed of pass/fail status.
- Course syllabus will describe details of feedback/debriefing and other post activities.
- Video-recording may be used for detailed debriefing evaluation and/or used for student self-assessment.
- Faculty needing to obtain materials from the lab during validation should do so only when absolutely necessary to minimize disruption to the students and the validation process.

GRADING

Individual course syllabi will outline grading criteria for Learning Lab activities.

<https://www.inacsl.org/healthcare-simulation-standards>

SUU Department of Nursing Policies;
Policy #5.5.2: *Unsafe/Unprofessional Clinical Practice*
Policy # 5.5.3: *Student Progression in the Nursing Program*
Policy # 5.5.4 *Academic Integrity*

Quality and Safety Education for Nurses (QSEN) competencies.
<https://qsen.org/competencies/pre-licensure-ksas/>

SUBJECT: ACADEMIC ADVISING

Purpose

1. To facilitate student progress in meeting program outcomes and criteria for performance and behavior.
2. To develop retention and remediation plans aimed at reinforcing areas of strength and improving in areas needing development.
3. To provide each student a consistent nursing faculty resource throughout the nursing program.

Process

1. Upon admission to the nursing program each student will be assigned a nursing faculty advisor for the duration of the program.
2. A group meeting will be organized and mandatory at the beginning of each semester for all students to meet with their advisor.
 - a. **Mandatory Attendance** – definition: *The nursing department schedules student events for which attendance is mandatory. These events include opening celebration each semester for all students and Hurst Review for the **HP and Pre-Licensure Level 4** students. **Prior to the event, students must submit a written request to the department chair asking to be excused. Valid reasons for excusal may include a family death or presence of contagious illness. Non-valid reasons for excusal are conflicting work schedules or family vacations. The department chair will consider each request on an individual basis. Students whose requests are deemed valid will be notified that they are excused. Students whose requests are deemed not valid will be notified that they are not excused. A clinical point will be issued to any student who is not present at a mandatory event and has not been excused.***
3. A second contact will be made about week five via email. A third contact will be made about week twelve, again via email.
4. Individual advisement can occur as needed, initiated either by the faculty advisor or at student request. Students will meet with their faculty adviser to create individual plans that can include their adviser, course instructor, plus others as needed. Struggling students will meet on a weekly, monthly or as needed basis with their adviser.
5. Unresolved student concerns will be discussed with the department chair by the student and/or the faculty advisor.
6. Students, as well as Faculty have the option to petition for a change in assignment should the need arise. A formal request should be filed with the Department Chair.

Evidence

1. Faculty will submit a record of all advisement sessions held throughout the semester.
2. To be given to the Program Manager, to be filed in the student's permanent file.

SOUTHERN UTAH UNIVERSITY
Department of Nursing
Policy and Procedures

Policy # 5.4.1
Date Originated: 5/7/2007
Date Reviewed: 8/2021
Date Amended: 8/2022

SUBJECT: ACHIEVEMENT TESTING

- I. PURPOSE:** The purpose of this policy is to provide guidelines for incorporation of Achievement Testing into course grades.
- II. POLICY:** All pre-licensure and health professional students will take proctored assessment content area tests as scheduled each semester for which a content test exists. Achievement testing activities will be monitored by course faculty.
- III. PROCEDURE:**
 1. Responsibilities:
 - a. In coordination with faculty the Administrative Assistant will determine the places and times of exam administration.
 - b. The faculty of the nursing course to which the diagnostic exam is attached will alert the students of the date, time, and place of the proctored exam administration and proctors. Every syllabus will contain a table with level ATI exams.
 - c. Faculty members will un-lock codes to give students access to practice exams, as appropriate.
 - d. At the close of the exam, office staff will close the completed exam and create a group report showing each individual student scores. Reports will be shared with all level faculty and will be stored in a binder in Administrative Assistant's office.
 - e. To be admitted to the test, students must produce proof that they have taken the online practice examination with at least a 90% score.
 - f. Students must take all assigned exams on the dates and times scheduled (schedule found on Current Student Resources website), unless prior approval has been obtained from exam faculty.
 - g. The 2nd proctored content test will be administered at the end of course and may be used as the course final exam. The ATI exams will represent *at least 20%* of the course grade. (See syllabi for each course for details).
 2. Remediation
 - a. Remediation is encouraged on all content area tests for all students. Faculty may require remediation as part of requirements to successfully complete a course. Guidelines will be specified in course syllabi.
 3. For students taking Level 4 classes, the Comprehensive Predictor will be taken two times in connection with and be applied to the grade for NURS 4555/4557.
 - a. See 4555/4557 syllabus for details.
 4. Achievement testing activities are critical for developing thinking and test taking skills to pass NCLEX, students who miss or are unable to complete assigned tests will be treated as follows:
 - a. If for any reason a student is, on the scheduled date, unable to begin or complete the exam, the student will be assigned a failure. Any exception will be dealt with on an individual case by case basis. If the student is late arriving at the testing center, and the door is closed, they will not be admitted. Do not knock on or try to open the door.
 - i. Student must contact and reschedule with the faculty.
 - ii. Student's grade will be effected, by 10-15%, if scheduled time is missed.
 - iii. A student late to the Comprehensive Predictor: students are to text the faculty and quietly wait for admission (do not knock or try and open door).

SOUTHERN UTAH UNIVERSITY
Department of Nursing
Policy and Procedures

Policy # 5.4.1
 Date Originated: 5/7/2007
 Date Reviewed: 8/2021
 Date Amended: 8/2022

SUBJECT: ACHIEVEMENT TESTING

Schedule of Tests by Level

Level One	Level Two	Level Three	Level Four
<u>N 3130/3132</u> <u>Fundamentals</u> Fundamentals	<u>N 3230/3232: Care of Adults</u> Medical-Surgical <u>N 3240/3242: Mental Health</u> <u>Nursing</u> Mental Health <u>N 3220/3222: Pharmacology &</u> <u>Therapeutics</u> Pharmacology	<u>N 4350/4352: Population</u> <u>Care</u> Community Health <u>N 4320/4322/4330/4332:</u> <u>Care of the Family</u> Maternal/Newborn Care of Children	<u>N 4550/4552: Leadership</u> <u>& Management</u> Leadership <u>N 4555/4557: Capstone</u> Comprehensive RN Predictor

5. To maintain consistency with each exam at every level; proctoring Faculty will start every proctored exam with the following script:

ATI Exam Script

We are about to begin the _____ exam. If you are not here for
 Exam Name

this exam you have _____ minutes to leave the room.

Textbooks, notes, reference materials, as well as calculators and all other personal electronic devices are prohibited during the exam. Please, put away all reference materials, now. Cell phones, Smart Watches and all other electronic devices need to be turned off now. Cell phones and all other personal items, backpacks, textbooks, etc. need to be placed at the side or front of the testing room.

Once the exam is started, no one is to enter the testing room. Late students will not be admitted by faculty and will not be admitted by fellow students. Those arriving late, grades will be effected. Any student who assists or aids students in entering the exam room after the exam has started, will be penalized.

For Exemptions to this policy to be considered, they must be submitted in writing to the Nursing Department Chair within two working days of the scheduled test date.

Please be respectful of fellow students who are still testing when you leave and do so in a quiet manner. Please help the door to close quietly behind you, so that it does not slam. You will now be approved to begin the exam. It may take a few minutes for your screen to refresh after you have been approved.

Do not click outside of the testing window at any time. Doing so will stop your assessment.

Any questions?

SUBJECT: NCLEX-PN

- I. PURPOSE: To provide a process of certification/eligibility for SUU pre-licensure Nursing students who choose to sit for the NCLEX-PN examination after successful completion of level one and level two courses.
- II. POLICY:
- a. Students will be eligible to receive their certification to test by an embossed, with the University Seal, and signed Letter of Eligibility after:
 - i. Successful completion of level one and level two courses.
 - ii. Successful completion of the PN predictor exam with a score of 70% or higher.
 - b. Students must be in good standing in the nursing program.
 - c. Once level two grades have been posted and the PN predictor exam has been passed, students may request their Letter of Eligibility from the Program Manager.
 - d. Information about the NCLEX-PN exam is found on the Department of Professional Licensing (DOPL) website (www.dopl.utah.gov)
 - e. The PN predictor may be taken twice and only at the pre scheduled days and times.
 - i. The predictor can be repeated one time if the 70% benchmark is not reached. The repeat must be taken at the next scheduled test date.
 - ii. Students who do not reach the 70% benchmark, can petition to meet with their assigned nursing advisor for some remediation and discussion to successfully proceed through the process of taking the NCLEX-PN licensing exam. All exceptions are at the discretion of the faculty assigned to review students request and/or the Department Chair.
 - f. Students must take the PN predictor on the scheduled dates only. Permission for exceptions can be requested, in advance, from the office staff.
 - g. The NCLEX-PN must be taken within two months following the receipt of their Letter of Eligibility/equivalency.
- III. LICENSING:
- a. Application Process
 1. PN Candidates, pick up a Letter of Equivalency from the Department of Nursing after passing the PN-Predictor (to be enclosed with your application to DOPL).
 2. *Register and pay Pearson Vue.*
 3. *Once PN-Letter of Equivalency is obtained, send to Occupational and Professional Licensing (DOPL) the completed application to test*
 4. When notified NCLEX-PN is passed. Apply to DOPL with application, fee and fingerprint cards.
(Please note, test must be taken within 30 days of DOPL receiving application!)

Department of Nursing
Policy and Procedures

Policy # 5.5.2
Date Originated: 12/20/06
Date Reviewed: 12/2021
Date Approved: 9/22/2022

SUBJECT: PROFESSIONAL – PRACTICE OCCURENCE POLICY

- I. PURPOSE:** The student will demonstrate professionalism and safe practice at all times while in the Nursing Program. See Professional Expectations Policy for definitions of professionalism expectations.
- II. POLICY:** Any behaviors inconsistent with this expectation will be documented, discussed with the student, and remain a part of the student's performance record throughout the nursing program.
- A.** Unacceptable behaviors may be classified as unprofessional/unsafe or critical unprofessional/unsafe.
- B.** Unprofessional/Unsafe behaviors will have a point value attached to them. **An accumulation of 4 points will result in a full review of the student's performance record by the Review Panel and may result in action affecting the students' standing in the program.**
- C. UNPROFESSIONAL/UNSAFE PRACTICES -** The following behaviors are considered **Unprofessional/Unsafe**. Each incident will be assigned 1 point.
1. Failure to meet the client and gather assessment initially in clinical.
 2. Failure to complete clinical preparation assignments, such as drug cards, forms or improper equipment/uniform.
 3. Failure to submit, to the office manager, proper documentation (including immunizations, drug screens, CPR, NSNA membership, forms, etc.) by deadline date.
 4. Failure to notify supervising faculty (and receive confirmation) and/or unit at least one hour **PRIOR** to assigned time of arrival for illness or tardiness.
 5. Tardiness
 6. Unexcused absence (no call, no show or leaving assigned area without proper communication with clinical instructor/staff/preceptor).
 7. Inadequate knowledge, before initiating care, of treatment, medications, or plan of care.
 8. Medication error.
 9. Treatment error.
 10. Error prevented from occurring by clinical faculty/staff intervention (Note: The student is not in error when consulting with faculty regarding dosage calculations or clinical judgments prior to initiation).
 11. Communication with staff, faculty, fellow students, or clients that is disrespectful or otherwise unprofessional.
 12. Inappropriate dress.
 13. Any behavior deemed Unprofessional/Unsafe/Unsatisfactory by the faculty.
 14. Inappropriate use of clinical time.
 - a. The faculty member may send the student home or to the Nursing Learning Lab for any of the above behaviors, particularly if client care or safety is compromised. **If it becomes necessary to dismiss the student from the clinical setting for the day, an additional point will be assigned and clinical hours must be made up.**
 - b. Level faculty members meet with the student to complete the Occurrence Report as soon as feasibly possible after the incident has occurred (preferably on the day of the incident). Faculty will meet with the student regarding the incident within 1 week unless it is the student's 4th point and then the meeting should occur the next business day with the faculty member involved or another level faculty.

SOUTHERN UTAH UNIVERSITY
Department of Nursing
Policy and Procedures

Policy # 5.5.2
Date Originated: 12/20/06
Date Reviewed: 12/2021
Date Approved: 9/22/2022

SUBJECT: PROFESSIONAL – PRACTICE OCCURENCE POLICY

- c. The student, faculty member involved and/or course faculty should all provide written comments on the Occurrence Report or document “no comment”. The level faculty will determine an appropriate action, related to the Unprofessional/Unsafe behavior demonstrated by the student. If student refuses to sign, the issue will be taken to the Department Chair.
- d. All Unprofessional/Unsafe incidents will be recorded and kept on file. Records must be maintained throughout clinical and/or course experiences for each student. Incidences are not confined to one course but are considered cumulative in evaluating the student’s overall clinical performance.
- e. Accrued Professional-Practice Occurrence points will remain in effect on return of out-of-sequence students; the cumulative total will be carried throughout progression of program of study.

D. CRITICAL UNPROFESSIONAL/UNSAFE PRACTICES - The following behaviors are considered **critical Unprofessional/Unsafe behaviors** and can potentially place the client, self, or others in immediate danger. An incident involving any of these behaviors will result in consequences from the specific policy violated or result in immediate full occurrence review from the Professional-Practice Occurrence review panel and MAY result in termination from the nursing program.

- 1. Any life-threatening error or action by the student to client, staff, faculty, or others.
- 2. Implementing any action that is in violation of the course, school, or agency HIPAA policy (See Health and Safety in Student Handbook https://www.suu.edu/nursing/resources/Nursing_Student_Handbooks.html).
- 3. Impaired Performance regardless of cause including; drugs, chemicals, sleep deprivation or stress.

E. PROFESSIONAL-PRACTICE OCCURRENCE REVIEW PANEL - The Professional-Practice Occurrence Review Panel consists of another level student, Program Manager and one other faculty member from a different level or clinical associate designated by the Department Chair that is not assigned to the clinical course. The student will not be able to participate in further clinical activities until the Panel has met and a decision has been reached regarding progress of the student. The panel may call in the student and/or faculty member involved when considering concerns.

- 1. The panel will make one of the following decisions:
 - a. Remediation.
 - b. Assign course failure(s).
 - c. Dismissal of student and possible termination of student from the program.
- 2. The Professional-Practice Occurrence Review Panel will make the final decision regarding student progression.

All clinical points will remain with a student who has deferred or is retaking a course or level, including students who have started the program and then deferred their place until a subsequent cohort space is available

F. EVALUATION OF PROFESSIONAL-PRACTICE PROGRESSION - If a student’s performance is consistently below expected level, although points may not have accrued under the Professional-Practice Occurrence Policy, the student will participate in an evaluation conference with the course faculty.

SUBJECT: Professional Expectations (Professionalism)

Timeliness-arrive on time to clinical, lab experiences, and class. If a student will not be on time, they should notify the appropriate faculty before the start time stating the reason for the delay. An unexcused absence (no call/no show) is 30 minutes after the scheduled arrival time of a clinical or the start time of class.

Engagement in class/clinical- students should be attentive to what is occurring and be actively engaged. They should exhibit intellectual curiosity by asking questions, and show interest in the subject. Utilize time wisely. Look for opportunities that are new and be ready to work.

Respect towards others- Be supportive by listening to what others have to say by not interrupting, being kind about what they are saying even if you don't agree, and being polite to others. Treat others how you want to be treated. Reflected in attitude towards others by punctuality, cooperative attitude, honesty and courtesy.

Provide person-centered care- relates to others using compassion, care, empathy and respect in a way that is meaningful.

Integrity- Integrity in the workplace comes in many forms, but above all refers to having upstanding character traits and work ethics including sound judgment, honesty, dependability, and loyalty. Uphold the standards and expectations of the clinical facilities and the university.

Uniforms- Should be clean, free from stains, free from wrinkles, and fit appropriately. You should also have the correct badge and supplies to succeed during the clinical or lab experience. General appearance should be neat and clean with low body odors. While wearing the uniform of the SUU DON the students will exhibit the utmost professionalism whether in the clinical/classroom setting or in the community.

Provide safe care- Patient safety includes prevention of diagnostic errors, medical errors, injury, or other preventable harm to a patient during the process of health care and reduction of risk of unnecessary harm associated with patient care. Report actual or potentially unsafe situations or persons to faculty or staff of the facility.

Teamwork- Work well with others. Willingly engage in activities with others using each team member's unique strengths and skills to promote the delivery of high-quality, effective nursing care and promote positive healthcare outcomes for all patients. Follow directions. Establish rapport with other individuals on a team. Give and receive constructive feedback.

Confidentiality- Confidentiality in the medical setting refers to “the principle of keeping secure and secret from others, the information given by or about an individual in the course of a professional relationship, unless the information is necessary for patient treatment” and it is the right of every patient, even after death. Use social media judiciously.

Attendance- This is a face-to-face program and the student is expected to be present and on time for all classes, lab and clinical experiences. Appointments, work obligations, vacations, and other personal matters are not to

SUBJECT: Professional Expectations (Professionalism)

be scheduled when the student is committed to the classroom, lab and clinical experiences. Attendance for each class will be designated per the instructor.

Accountability- Each student is accountable for their actions, behaviors and the choices they make. Accountability as a student means to stay committed to learning and growing. Accountability as a student nurse means to adhere to the high standards of the nursing practice, and to be held accountable for any deviation from those standards.

Personal phone use- cell phones are not to be used during a clinical for personal purposes. If you need to use one, please go into a break room or bathroom to use them. Personal phones may be used to look up things related to patient care if appropriate.

Example of Professional Conduct in the clinical setting: Keeping voice down, speaking respectfully to the nurses and other healthcare staff, do not talk about patients or their conditions outside of patient care (this means not in the halls, at lunch, on the elevator, etc.), do not tell a nurse, doctor or other healthcare provider they are wrong in front of the patient, be actively engaged, no cell phone out, etc.

Refer to the Professional Practice Occurrence Report

SUBJECT: Technology in the Classroom

- I. **PURPOSE:** To maintain the academic integrity of courses in the Department of Nursing through appropriate student use of technology in the classroom.

The Department of Nursing views the use of personal electronics as affecting everyone involved with a learning experience. Therefore, the use of these devices shall be dictated by the Department's Appropriate Use of Technology in the Classroom policy and is not solely an individual student's choice.

For purposes of this policy, "personal electronic device" means any device that a student is in possession of which electronically communicates, sends, receives, stores, reproduces or displays voice and/or text communication or data. These include, but are not limited to cellular phones, pagers, smart phones, music and media players, gaming devices, tablets, laptop computers, personal digital assistants, smart watches, electronic translating devices, etc., etc.

The use of any personal computational or communications devices in the classroom, not otherwise governed by the University or course policies, is subject to the approval of the instructor. The use of such devices without permission of the instructor may be considered disruptive behavior.

II. **POLICY:**

1. All devices, including cell phones, smart watches, pagers, tablet PCs, mobile presenters, wireless tablets, digital recorders, beepers, palms, iPods, MP3 players, texting calculators, camera phones, digital cameras, laptops, and/or electronic translators are not to be used during class unless the professor authorizes their usage for a class-related purpose.
 - a. In particular, cell phones are to be turned off or silenced and are not to be used during a class.
 - b. If the instructor gives permission for the use of a personal computer and/or digital recorder for note-taking that is the sole purpose for which these devices should be used.
2. The use of any electronic devices during examinations, other than those sanctioned by the professor in charge of the testing, is strictly prohibited.
 - a. If the professor allows the use of calculators, a basic scientific calculator may be used (a scientific calculator is one that can calculate the values of the standard algebraic and transcendental function, but cannot display graphs of functions or do symbolic manipulations. They can be readily recognized because they have a "one-line" display).
 - b. Graphing and/or programmable calculators will be allowed in tests or quizzes only with instructor permission.
 - c. No other devices with calculator capabilities, like phones, iPods, etc. will be allowed in tests or quizzes.
 - d. Your instructor may choose to prohibit the use of calculators on quizzes or exams, or may choose to distribute calculators owned by the Department of Nursing.
 - e. No lending/borrowing of calculators is allowed during quizzes and exams.

SOUTHERN UTAH UNIVERSITY
Department of Nursing
Policy and Procedures

Policy #
Date Originated: 5/2012
Date Reviewed: 8/2022
Date Amended: 08/22/2022

SUBJECT: Technology in the Classroom

3. Cell phones/camera phones are to be turned off and not used during any testing or examination periods. During testing cell phones/camera phones are to be stored in a case, book bag, knapsack, or purse, and may not be placed on the table, desktop, or individual's lap.

Earpieces and/or earphones may not be worn during quizzes and/or exams. Ear plugs are okay.

- a. If you are "on call" during a test, you may leave your cell phone with the instructor during the test. Otherwise, turn it off and put it in your backpack. If you answer your cell phone during a test, your test will be discarded.
 - b. A cell phone may *not* be used as a calculator (see #3 above).
4. Students with disabilities, who require electronic devices for their day-to-day functioning in the academic setting, are to coordinate the use of electronics during class sessions with the Student Support Center and course faculty members who will notify their course professor of needs.
 5. Faculty members have the right to instruct students to turn off laptops and other devices, and to stow those devices in secure places during any class.
 6. All tests are designed to assess the students' ability to apply the language you have learned to a specific task. The Southern Utah University Department of Nursing forbids the use of electronic devices for the purpose of translation on any test. It is suggested that as you read and study for exams that you seek help from your professor, go to the Tutoring Center, consult your textbook, or use a bilingual dictionary to help you learn the discipline-specific language.

Students who violate this policy may be asked to leave the room, and may not be allowed to complete the exams, thus incurring a failing grade for the test. Students may also be liable for additional disciplinary sanctions under this policy. The final decision on the acceptability of a resource lies with the course instructor.

SUBJECT: STUDENT PROGRESSION IN NURSING PROGRAM (Grades)

- I. **PURPOSE:** The purpose of this policy is to provide guidelines for successful progression of students through the nursing program.
- II. **POLICY:** Successful progression in the program requires a consistent demonstration of ability to master professional skills, apply these skills in clinical practice, and to adhere to professional nursing ethics and values.
 - 1. The faculty members believe students’ mastery of the major concepts, frameworks, processes, and thinking abilities identified in the curriculum will demonstrate that students are prepared to practice as a professional baccalaureate nurse.
 - 2. A variety of assessment and validation methods will help students, the faculty, and outside mentors determine their consistency in meeting the ability based outcomes of the program.

III. DEFINITIONS:

- 1. **Assessment** is defined as a measurement of student activity that provides information for analyzing and evaluating student’s progress towards meeting course and program outcomes.
 - a. Analysis of information is completed by faculty members, students, peers, and at times, an external evaluator.
 - b. After analysis, plans are made for improvement in subsequent assessments.
- 2. **Validation** is defined as a student activity that judges the competency of the student to meet the standards and criteria for course and program outcomes.
 - a. Validation judgments will be made by faculty members and professional staff.
 - b. Some validation activities will require self and peer judgments.
- 3. **Grades:** Grades for all courses are determined in accordance with the policy of the Department of Nursing. Final percentages of validation activities may be calculated and converted into whole numbers using the rounding rule of rounding up for 0.5 or more and rounding down for less than 0.5. Grades will be determined using the following grading scale:

94-100% = A (4.0)	77-79% = C+ (2.3)
90-93% = A- (3.7)	74 -76% = C (2.0)
87-89% = B+ (3.3)	70 -73% = C- (1.7)
84 -86% = B (3.0)	74% or below = fail
80-83% = B- (2.7)	

SUBJECT: STUDENT PROGRESSION IN NURSING PROGRAM (Grades)

IV. PROGRESSION GUIDELINES:

1. To progress in the program, students must maintain a semester grade point average of B- (GPA 2.70 on a 4.0 scale) and no failing courses.
 - a. **If a student is not progressing in a clinical course:**
 1. If a student's clinical performance is consistently below expected level, although points may not have accrued under the Safe/Professional Practice Policy, the student will participate in an evaluation conference with the course faculty or level faculty.
 2. Student's progression in the clinical course may be halted before the student enters the clinical setting if course faculty members deem the student's performance as unsafe in the Nursing Learning Lab.
 3. Course faculty will assign a course grade based on evidence of clinical performance including Nursing Learning Lab Validations, observation of student in Nursing Learning Lab, off-campus clinical settings, Clinical Evaluation Forms, and clinical faculty input.
 4. If the student fails, the clinical course they follow the procedure as outlined in policy; IV.1.b.
 - b. **If a student does not achieve a semester GPA of B- (2.70) or if a student fails a nursing class (at the discretion of the level team), and it is the first occurrence, the student will fail and can retake the course. If it is a clinical course and/or the level, the student will need to wait for space to become available, before they can retake failed clinical course.**
 1. Students may repeat a nursing course only once.
 2. Costs incurred by fulfilling the requirements are the responsibility of the student.
 - c. **If a student is unsuccessful in the same or an additional course with the NURS prefix (in the same semester or later semesters) and it is the second occurrence:**
 1. The student will be terminated from the nursing program.
 - d. **Withdrawal from nursing classes**
 1. If withdrawal from the nursing program becomes necessary, withdrawal is to be negotiated with the course faculty and student's advisor.
 2. The SUU academic calendar identifies the last day to drop a course without a UW.
 3. Withdrawal by a student who is not meeting course outcomes at the time of withdrawal will be interpreted as an unsuccessful course completion and will be handled as such. As per SUU policy number, 6.31.
 4. All prerequisites or co-requisites must be successfully completed prior to progression to any course scheduled in subsequent semesters.
 5. All courses designated as part of a level must be successfully completed before taking any courses on a subsequent level.
 6. If a student who has withdrawn voluntarily wants to be readmitted to the nursing program, they must complete the "Student Readmission To Nursing Dept Form" in the Student Forms - Appendix portion of the student handbook and submit it to the Administrative Assistant in the Department of Nursing Office. Application does not guarantee re-admission.

Department of Nursing
Policy and Procedures

Policy # 5.5.3
Date Originated: 5/7/2007
Date Reviewed: 12/2021
Date Amended: 9/22/2022

SUBJECT: STUDENT PROGRESSION IN NURSING PROGRAM (Grades)

2. Readmission policy for the Nursing Program is as follows:
 - a. Readmission submission requests must be submitted no later than the application due date of semester student wishes to return (Fall semester, last Friday of February. Spring semester, last Friday of September).
 - b. Consideration for readmission is based on the current application standards, and made by the Admissions and Advancement Committee on a space available basis, all decisions are final.
 - c. Each case is considered individually and students are not guaranteed readmission.
 - d. Readmission to a specific level of the nursing program is granted one time only.
 - e. The Pre-licensure program must be completed within five years of official acceptance to the program including withdrawals or readmission.
 - f. The RN to BSN program must be completed within three years of official acceptance to the program including withdrawals or readmission.
3. If terminated from the program, students will not be readmitted.

V. Track Change Requests:

1. Track change is defined as any student requesting to move from Prelicensure to HP to BSN or HP to BSN to Prelicensure.
2. Students may be considered for a track change if the following conditions are met:
 - a. The student seeking a track change has some type of extenuating circumstance (i.e. medical necessity of self or family).
 - b. The student is in the third or fourth semester/level of their program. No student may change tracks during the first of second semesters/level of either track.
 - c. Students written request with supporting documentation for a track change, must be submitted by the last day of the previous semester (end of semester two or three).

Department of Nursing
Policy and Procedures

Policy # 5.6.1
Date Originated: 5/7/2007
Date Reviewed: 12/2021
Date Approved: 11/04/2019

SUBJECT: Clinical Expectations, Uniform and Appearance

- I. PURPOSE:** The purpose of this policy is to provide guidelines of Clinical Expectations, Uniform and Appearance requirements.
- II. POLICY:** All pre-licensure students are required to adhere to the following clinical expectations. All students are required to purchase the regulation uniform and patch from the selected vendor(s). The Department of Nursing patch must be worn on the **LEFT** center of sleeve of the uniform and the left center of sleeve of the white lab coat, if applicable. All students are also **required** to wear a photo name badge which will state their first name followed by Student Nurse, Southern Utah University; this badge will be provided by the Department of Nursing. It must be worn **AT ALL TIMES YOU ARE IN A CLINICAL SETTING**, unless clinical site requires a different badge.
- III. PROCEDURE:** Clinical Expectations of students at clinical sites are as follows:
- a. Students are at clinical sites as a student and shall not be deemed an employee of the clinical site for purposes of compensations, fringe benefits, worker's compensation, unemployment compensations, malpractice/professional liability coverage, licensure, certification, etc.
 - b. Professional Conduct obligations of the nursing students are that students must maintain confidentiality of patient information. It is the student's obligation to comply with SUU's and clinical sites rules and regulations while attending clinical at said site. It is the student's responsibility to be aware of health and safety standards set by HIPAA and/or OSHA, Exposure Control Plan, and any other applicable law. Students are to arrive early and professionally dressed to every clinical. Students will not work in the six-hour period prior to their clinical start time.
 - c. It is the student's responsibility to seek and receive health care at the time of exposure to infectious agents while in the clinical setting and provide any copies of medical records of these services to the clinical site and SUU. The student is responsible for cost of such health care and or testing including follow-up testing.
 - d. It is the student's obligation to obtain prior written approval from SUU and clinical sites before publishing any material relating to a clinical experience, to remain in compliance with the regulations found at 42 C.F.R. part 2, and with the Health Insurance Portability and Accountability Act of 1996 (HIPAA).
- IV. PROCEDURE: The uniform is a tan/khaki-colored top and black scrub pants.** A white lab coat is optional. The uniform will be purchased from a designated vendor at their website, information on how to order will be distributed at Level 1 orientation.

Shoes are to be a clean, solid color; not more than two colors (black, grey, white), closed toe shoe that matches uniform/scrubs; no open-toes or bright, fluorescent colors. If you have questions, consult with your clinical faculty member. Students are allowed to wear a solid color black or white turtleneck or tee under their uniforms if desired. Depending on the clinical site, uniforms, or a white lab coat, must be worn whenever in the clinical area, community clinical site. Patches are available for purchase in the Department of Nursing Office.

- A. APPEARANCE** - You will be expected to dress and act professionally at all times when in the clinical area. Uniforms must be clean and neat. You are expected to manage personal hygiene habits to control cleanliness and avoid offensive body odor. Perfume, cologne or lotions that might interfere with those who are ill or allergic to such odors or fragrances should not be used. Hair, including facial hair, must be well groomed and neat and no extreme, unnatural colors. Extreme styles which may distract from providing exceptional care should be avoided. Visible body piercing is not permitted except for one pair of earrings. Fingernails should be trimmed as to not be visible when viewed from the palmar side. Nails are to be clean without polish, artificial nails, wraps or any other nail adornment. Tattoos need to be covered, as they can be unprofessional and distracting. Institutional requirements for specific clinical agencies that may further define dress codes will be adhered to; such as hair pulled back from face, tattoos covered, etc. This policy is available to review in the DON offices.

Department of Nursing
Policy and Procedures

Policy # 4.50
Date Originated: 5/7/2007
Date Reviewed: 8/2021
Date Approved: 10/2/2022

SUBJECT: Academic Integrity/Due Process

The SUU Department of Nursing holds their students to the highest of standards and take very seriously items of Academic Integrity, Conduct, Misconduct, and the rules of Due Process.

Academic Integrity

The Department of Nursing will follow the policies of the Division of Student Affairs on Academic Honesty (<https://www.suu.edu/studentaffairs/academichonesty.html>) and the SUU Academic Integrity Policy, Policy # 6.33 (<https://help.suu.edu/uploads/attachments/PP633Academic.pdf>).

Syllabi will also include faculty policies on Academic Integrity.

Student Conduct

Professional behavior is an expectation not just as a student at SUU but also as a member of the nursing community. This puts an added responsibility on you to be familiar with the ethical and legal requirements and responsibilities addressed by SUU and by the nursing profession. The following links will provide you with the information you need to function ethically and legally in your role.

SUU General Catalog, www.suu.edu/academics/catalog; SUU Student Conduct Code, <https://www.suu.edu/policies/11/02.html>, which is a publication of student government; NSNA code www.nсна.org; ANA code www.nursingworld.org; Utah Nurse Practice Act www.dopl.utah.gov).

Student Misconduct

Student misconduct can result in suspension or dismissal from the SUU Nursing program. Suspensions will be based on unsafe and/or unprofessional conduct. In addition to the observation of misconduct relative to the University Student Code, students in the Department of Nursing must act in a safe and professional manner. Unsafe or unprofessional behavior may be grounds for immediate suspension or dismissal from the nursing class or clinical, regardless of previous academic or clinical performance as described in the department General Professional Behaviors and Clinical Professional Behaviors.

Due Process

Due process is a system of rules and guidelines designed to achieve fair and reasonable resolution to a dispute. Southern Utah University has developed procedures that apply to all disputes involving or regarding students. Problem resolution precedes due process. It is always preferable to resolve differences through informal means when possible before resorting to due process procedures. Informal resolution means going directly to the person with whom you have a conflict to work things out between the parties involved. The next phase of informal resolution will involve the immediate supervisor (department chair) to assist in resolution by functioning as an intermediary. If the problem cannot be resolved through these informal means, the concern is elevated to a formal complaint as the student submits a written explanation of the complaint to the department chair. Refer to the university due process policy for specific steps (SUU Policies and Procedures 6.22).

SUBJECT: Social Media Policy

Policy Statement

The Southern Utah University Department of Nursing expects nursing students in the program participating in social media to be compliant with privacy and confidentiality policies and to communicate in a professional manner.

Purpose

The SUU Department of Nursing supports the use of social media to reach audiences important to the University such as students, prospective students, faculty and staff. The Department presence or participation on social media sites is guided by university policy. This policy applies to the SUU Department of Nursing students who engage in Internet conversations for school-related purposes or school-related activities such as interactions in or about clinical and didactic course activities as well as non-school-related activities that would or possibly could reflect poorly on the Department or anyone it is affiliated with. Distribution of sensitive and confidential information is protected under HIPAA and FERPA whether discussed through traditional communication channels or through social media.

Definitions

Social Media – Digital media based on social interaction and or created using highly accessible and scalable publishing techniques, in which messages are primarily disseminated and received among users on a peer-to-peer basis. Social media is commonly thought of as a group of Internet-based applications that are built on the ideological and technological foundations of the web that allows the creation and exchange of user-generated content. Examples include Facebook, InstaGram, Twitter, Wikipedia, Second Life Flickr and networking services such as LinkedIn, blogs, Allnurses.com, etc.

General Information

Reference resources should be used to clarify the nurse’s role and responsibilities. Please review the National Council State Boards of Nursing’s (NCSBN) White Paper: A Nurse’s Guide to Use of Social Media and the American Nurses Association’s (ANA) Principles for Social Networking and 6 Tips for Nurses Using Social Media (1/2012).

While this policy may need to be modified as new technologies and social networking tools emerge, the spirit of the policy will remain the protection of sensitive and confidential information. Social media often spans traditional boundaries between professional and personal relationships and thus takes additional vigilance to make sure that one is protecting personal, professional, and university reputations.

Students will want to represent the University and the Department in a fair, accurate and legal manner while protecting the brand and reputation of the institution.

When publishing information on social media sites, remember, that information may be public for anyone to see and can be traced back to you as an individual. Since social media typically enables two-way communications with your audience, you have less control about how materials you post will be used by others. As one person remarked, “If you wouldn’t put it on a flier, carve it into cement in the quad or want it published on the front of the Wall Street Journal, do not broadcast it via social media channels.”

SUBJECT: Social Media Policy

Provisions/Policy

- Protect confidential, sensitive, and proprietary information: Do not post confidential or proprietary information about the university, faculty, staff, students, clinical facilities, patients/clients, or others with whom one has contact in the role of a SUU Department of Nursing student.
- Respect copyright and fair use. When posting, be mindful of the copyright and intellectual property rights of others and of the university. For guidance, see the Department of Nursing staff and visit the University's Information Technology site.
- Do not use SUU's and the Department of Nursing marks, such as logos and graphics, on personal social media sites. Do not use SUU's name to promote a product, cause, or political party or candidate.
- Use of the University's and Department of Nursing marks (logos and graphics) for School sanctioned events must be approved (posters, fliers, postings) by the Department's administration.
- It is expected that during clinical use of PDAs and other devices employed for social media will be used only as authorized by faculty. If a PDA is combined with a cell phone, iPad or other electronic device, it is expected that the electronic device only be used in times as determined by the syllabus, course faculty or clinical faculty.
- No personal phone conversations or texting are allowed at any time while in patient/client areas or in the classroom. If the student needs to respond to an emergency text or phone call during class, the student is asked to leave the classroom with respect and as quietly as possible and respond as deemed necessary.
- Use of computers (PDAs, Notebooks, etc.) during class shall be restricted to note taking and classroom activities. Use otherwise, especially when viewing social media, is distracting for not only the student involved in the activity but those in the immediate area/vicinity.
- No student shall videotape professors or fellow students for personal or social media use without the express written permission of the faculty or fellow student. At NO time shall patients/clients be videotaped or photographed without written permission of the patient/client and of the facility.
- Be aware of your association with SUU's and the Department of Nursing's in online social networks. If you identify yourself as a student, ensure your profile and related content is consistent with how you wish to present yourself to colleagues, clients, and potential employers. Identify your views as your own. When posting your point of view, you should neither claim nor imply you are speaking on SUU's or the Department of Nursing's behalf, unless you are authorized to do so in writing.
- HIPPA guidelines must be followed at all times. Identifiable information concerning clients/clinical rotations must not be posted in any online forum or webpage.
- Ultimately, you have sole responsibility for what you post. Be smart about protecting yourself, your and others privacy, and confidential information.

SUBJECT: Social Media Policy

Procedure/Considerations

- There is no such thing as a “private” social media site. Search engines can turn up posts years after the publication date. Comments can be forwarded or copied. Archival systems save information, including deleted postings. If you feel angry or passionate about a subject, it’s wise to delay posting until you are calm and clear-headed. Think twice before posting. If you are unsure about posting something or responding to a comment, ask your faculty. If you are about to publish something that makes you even the slightest bit uncertain, review the suggestions in this policy and seek guidance.
- Future employers hold you to a high standard of behavior. By identifying yourself as a Southern Utah University nursing student through postings and personal web pages, you are connected to your colleagues, clinical agencies, and even clients/patients. Ensure that content associated with you is consistent with your professional goals.
- Nursing students are preparing for a profession, which provides services to a public that also expects high standards of behavior.
- Respect your audience.
- Adhere to all applicable university privacy and confidentiality policies.
- You are legally liable for what you post on your own site and on the sites of others. Individual bloggers have been held liable for commentary deemed to be proprietary, copyrighted, defamatory, libelous or obscene (as defined by the courts).
- Employers are increasingly conducting Web searches on job candidates before extending offers. Be sure that what you post today will not come back to haunt you.
- Monitor comments. You can set your site so that you can review and approve comments before they appear. This allows you to respond in a timely way to comments. It also allows you to delete spam comments and to block any individuals who repeatedly post offensive or frivolous comments.
- Do not use ethnic slurs, personal insults, obscenity, pornographic images, or engage in any conduct that would not be acceptable in the professional workplace.
- You are responsible for regularly reviewing the terms of this policy.

Consequences

- Violations of patient/client privacy with an electronic device will be subject to HIPAA procedures/guidelines and consequences.
- Students who share confidential or unprofessional information do so at the risk of disciplinary action including failure in a course and/or dismissal from the program.
- Each student is legally responsible for individual postings and may be subject to liability if individual postings are found defamatory, harassing, or in violation of any other applicable law. Students may also be liable if individual postings include confidential or copyrighted information (music, videos, text, etc.).

Date Approved: 12/29/2021

SUBJECT: Student Nurse Association Requirement

The purpose of the SUU Student Nurse Association (SUUSNA) is to provide students a forum for developing the skills and capabilities of professional nurses.

Southern Utah University Student Nurses' Association (SUU/SNA)

The SUUSNA provides an opportunity for professional growth and development. The purposes of the organization include the following:

- Contribute ideas to nursing education,
- Encourage communication between nursing students at SUU and other students in the state and nation
- Provide programs representative of current professional interests and concerns, and
- Keep members updated on legislative issues.

The Southern Utah University Student Nurses' Association is a chapter of the Utah and the National Student Nurses Associations. This organization represents all students majoring in nursing. The organization has elected officials and is advised by a designated faculty member. SUUSNA is a chartered organization on the SUU campus.

It is a program requirement that all pre-licensure and Health Professional students join the SUUSNA and NSNA. Membership is to remain current for the duration of each students' enrollment in the nursing program. There is a fee associated with membership; dues are your responsibility. (to pay for the SUUSNA on-line, click here)

https://secure.touchnet.net/C20196_ustores/web/product_detail.jsp?PRODUCTID=994&SINGLESTORE=true

To join NSNA click here: <http://www.nsnamembership.org> to register and pay for the NSNA (Sign up and pay for two years).

SUBJECT: Donations, Fundraising and Student Use of these Funds

Donations and Fundraising

Students requesting donations for class or student activities will coordinate through the Faculty Advisor and Program Manager for approval. All monetary donations or gifts in excess of \$1,000.00 must be coordinated through the SUU Development/Advancement Office, SUU Policy #10.11.

SUU/SNA groups are allowed to have fundraisers, for a specific group or cause and or club needs, activities, etc. See Nursing Gear/Custom Print policy.

Other fundraisers are allowed, when approved prior to and for a specific event. An example would be, having a bake sale to raise money for Relay for Life.

Students must follow fund raising policies as found in the Department of Nursing Student Handbook and University policy #10.11.

All expenses (money spent) need to be paid for through the Nursing Administrative Assistant, Vikki Robertson. This way we stay in compliance with University policies. Note: SUU is tax exempt, tax is never refunded in reimbursements.

SNA Socials/events

Each semester \$300 is allocated for socials, events, etc.

SUUSNA account will be managed by the SUUSNA President and Treasurer.

All planned events for the SNA need to be calendared with the SUU Nursing Staff (Teresa and Vikki) no less than three weeks before the event is to occur.

Department resources and time may not be available with less than a three week notice.

Soliciting Funds from Senate and Student Reimbursement

See current SUUSA policies for up to date information on requesting funds from the Senate.

SUBJECT: Student Officers and Representatives

Selection of Student Officers and Representatives

Class Officers

Class officers are elected as part of the NURS 3140 and NURS 3142 course. Each class will determine the officers needed and conduct elections under the direction of faculty teaching the course. Those officers will stand throughout the program. When vacancies occur, replacement elections are conducted as needed.

SUUSNA Officers

SUUSNA officers are nominated and elected by class vote. Each level has representation with a class-designated officer on the SNA Board.

Level 3 Student Representative serves as the SUUSNA President.

Level 4 Student Representative serves as the SUUSNA Past President.

Level 2 Student Representative serves as the SUUSNA President Elect

Level 1 Student Representative serves as the SUUSNA Secretary

All other officers are elected.

These officers serve one semester as designated above. Assignments change on a rotating basis as students' progress through the nursing program.

Selection of Students to Faculty Councils and Committees

Student representation to faculty organization councils are chosen at the same time as class officers. Membership on faculty organization councils is as follows:

Faculty Meetings: President of SUUSNA and Presidents of each class organization (or president's designee) are student representatives for faculty meetings.

College Meetings (as deemed necessary from Dean): Department Representative, this is an application/acceptance process through the College and a one-year position. Student representative will serve as the nursing department representative to the College SUU Student Senator.

Department of Nursing
Policy and Procedures

Policy # 4.40
Date Originated: 5/7/2007
Date Reviewed: 8/2020
Date Approved: 9/22/2020

SUBJECT: Required Student Documentation

All Required Student Documentation as defined below is **mandatory** and **required** that students submit documented (written) proof to Program Manager by deadline date given upon acceptance.

Documentation of Membership in a Professional Nursing Organization

As a means of demonstrating commitment to the profession, documentation of membership is due with the nursing packet. Documentation must show current membership throughout the program. Pre-licensure students need to join the National Student Nurses Association (NSNA) and the SUU Student Nurse Association (SUUSNA) for two years.

Self-disclosure Health Record

Students are required to provide documentation of personal health history and current health status.

Documentation of Immunization and TB testing

As a patient care provider, students are required to remain current with documented proof of the following: TB test (initial test must be a two-step) or x-rays as recommended by health care provider, Tetanus, Diphtheria, Pertussis (Tdap), measles/mumps/rubella immunization, Varicella/Chicken pox immunization (two Varicella vaccinations), Hepatitis B, flu immunizations and COVID-19 (two-shot series or single dose shot). Documentation for all of the above must be provided to the program manager by the date specified. Documentation will be maintained in the nursing program files. Immunizations are available at the Southwest Utah Public Health Department Immunization Clinic or from a private health care provider.

Documentation of Basic Life Support for Health Care Provider (BLS)

To stay in compliance with clinical agency requirements, students are required to have current American Heart Association BLS for HCP certification on file in the department office (Beginning students will complete in their first semester).

Documentation of OSHA and Department of Nursing Exposure Control Plan

Before participating in procedures involving any risk of exposure to body secretions; and every semester students will receive training in OSHA exposure control guidelines and will be oriented to the department exposure control plan. Documentation of annual training will be maintained in nursing program files.

Documentation of Drug Screen

To stay in compliance with clinical agency requirements, students are required to participate in random drug screening.

Documentation of Background Check

To stay in compliance with clinical agency requirements, students are required to have approved background checks on file in the nursing office.

Documentation of Health Insurance Coverage

To stay in compliance with clinical agency requirements, students are required to provide proof of appropriate insurance coverage or a notarized waiver form must be completed. Please note: students who do not have health insurance may not be able to participate in some clinical rotations.

Documentation of Health Insurance Portability and Accountability Act (HIPAA)

An important part of nursing ethics is maintaining the client's confidentiality. We will help students to meet HIPAA training requirements of the clinical agency. Faculty will not accept written work containing full client name; client problems must not be discussed with family, friends, or others outside of the clinical setting and in the provision of care. Appropriate discussion of client cases and problems may occur in specialized settings as, for example, pre- and post-conferences without disclosing names. If confidentiality is violated, the student violating the confidence will be subject to disciplinary action. Obligation of the student to maintain confidentiality continues after completion of the program.

SOUTHERN UTAH UNIVERSITY
Department of Nursing
Policy and Procedures

Policy # 4.41
Date Originated: 5/7/2007
Date Reviewed: 8/2020
Date Approved: 8/10/2010

SUBJECT: Informational/Miscellaneous/Safety

Licensure preparation www.dopl.utah.gov/, www.ncsbn.org/, www.vue.com/

Graduation from the SUU nursing program is not a guarantee of licensure. Meeting all licensure requirements, completing application and passing NCLEX-RN is your responsibility. However, faculty will help you prepare to be successful.

Actions Pending Under an LPN License

The State Boards of Nursing have final jurisdiction over LPN licensure. Students are responsible for all interactions with state departments regulating LPN licensure. For students entering the program with an LPN license, the SUU Department of Nursing will be guided by disciplinary decisions of licensure regulating bodies. Any student holding an LPN license who is under review for any reason should notify the department of nursing chair of such action immediately. Subsequently, the chair is to be informed of progress toward resolution.

Liability Insurance

Liability insurance is provided by SUU only for students officially enrolled in courses. Students are not allowed to function as a student nurse in any clinical setting if not officially enrolled in the nursing course without clinical faculty present or available to monitor your clinical practice. Students should never present themselves as a student nurse without the knowledge of a clinical faculty member.

General Statement of Risks

You are expected to manage your own transportation and assume your own risks when traveling to and from class, labs, or clinical experiences and when performing duties in class, labs, or clinical experiences. There are inherent risks involved in travel and in lab and clinical experiences. The most obvious risks are accidents, contracting infections or other communicable diseases or workplace violence. Please take precautions to avoid risks and provide for your safety.

Safety in the lab and classroom and clinical

You will be advised about specific safety measures for labs and clinical experiences. You are then responsible to apply the guidelines for safety in the labs, classrooms and clinical agencies. Faculty will monitor your behavior to assure compliance with the guidelines.

Emergency response plan

You should be prepared to cope with hazards and disasters that may arise that have the potential to interfere with university function. In reporting an emergency, using a campus phone, dial 9-911, being aware that telephone lines may be damaged or overloaded. If you make contact, please stay on the line to present all necessary information to the dispatcher. Before taking any action, ensure you are not endangering yourself. Do not jeopardize your life or the lives of others in attempting to save personal or university property. Specific instructions for a variety of emergency situations are provided in the following link. <http://www.suu.edu/ad/em/>.

Photographs, Audio Recordings, and Written Material in Classrooms, Labs and Clinical Agencies

Release forms (see Appendix) must be signed prior to taking photographs, using any form of technology (camera, video, digital images, cell-phone cameras, etc.) of faculty, students, staff, clinical personnel, or clients. Audio and/or video recordings require signed release forms prior to such recordings being made. Students or faculty must not copy, take pictures of, or video any patient or facility documents from clinical agencies. Student work may not be copied or publicly displayed without written permission by the student. Patient information must not be obtained/stored using any technology.

Requests for Student Volunteers

When clinical agencies or other parties request student volunteers to assist with community events, independent of faculty coordinated events, students do not participate as representatives of the SUU Department of Nursing and should not wear clinical badges or SUU student uniforms. All liability is assumed by the clinical agency or community group, not by the university. When participation is planned and supervised by faculty as part of learning experiences, students represent the department and are covered by university policies and liability insurance.

Inclement Weather Attendance Policy for Class and Clinical

Class Attendance: During inclement weather, faculty members will proceed with classroom instruction unless Southern Utah University is closed.

Clinical Attendance: Clinical will proceed during inclement weather unless the roads are closed by local authorities or the lead faculty member cancels. However, if you feel unsafe in commuting to a clinical site, we urge you to use your best judgment in making a decision regarding your personal safety. If you do not attend a regularly scheduled clinical due to inclement weather you may be required to make-up the time at a later date. If for any reason you cannot make it to a clinical experience you **MUST** immediately notify the instructor AND the appropriate personnel at the clinical site.

If faculty cancel/change a scheduled event (including class or clinical); students and Department Chair need to be notified as soon as the decision is made. Ideally at least two hours before the scheduled event.

Criteria for Determining the Credibility of Evidence in Nursing

Critiquing Evidence:

1. Critique of Scientific Merit
 - a. Strength of the study design—studies that use random designs are usually the best evidence.
 - b. Representative of patients/clients—you must ask “Are the clients in the study similar to the ones cared for in my practice?” If the answer is “no” then the study is less credible for your situation but may be very valuable for other situations.
 - c. Are there other studies or pieces of evidence that have the same findings? If the answer is “yes” then all of the evidence has more credibility.
 - d. Credibility of the experts, authors, or researchers—do they have appropriate educational experience and credentials?
2. Critique of Applicability
 - a. Problem studied--does article or study address the current clinical problem/concern you or your facility is concerned about? Sometimes this is a trick question because you may not find any evidence that is directly related to the problem you are researching so you must find related evidence.
 - b. Are there any doubts that the intervention led to the outcomes? Unless the study has a lot of controls in place, it is hard to relate an outcome to an intervention - so don't just take the researcher or author's word that the intervention was what caused the outcome.
 - c. Would the new way of doing things be useful based on risk/benefits to clients/patient - is the new way safer than the old way and is the cost worth making a change?
3. Critique of Findings
 - a. Which findings are supported by more than one piece of evidence?
 - b. Which evidence is based on patients/setting similar to yours?
 - c. Which findings do you feel confident are supported by the evidence?
4. Making a decision about whether to change practice
 - a. What would I change in practice if I used the credible new evidence?
 - b. What degree of change would be needed—small medium or large. Does the system have the resources and will to make a large change?
 - c. Is there a risk or burden involved in making this change for the patients, staff and/or system?
 - d. Is the change feasible in terms of resources and economics? If not, why?
 - e. If I make the change, what will happen to patients? What will be an expected patient outcome?

Standard Criteria for Student Performance

The nursing curriculum is abilities based, which means faculty members expect a certain level of analysis, critical thinking, and problem-solving as a foundation for your performance. The following standard criteria for professional and academic performance are essential to your success in the program. Faculty members expect these criteria will be routinely met.

Writing You need to follow these general writing criteria for all writing assignments:

1. Follow directions of faculty for individual writing assignments.
2. Use word choice, style and tone to show awareness of audience's knowledge, values, need for clarity, right to opinions, and expectations of interest.
3. Use Standard English forms of grammar, spelling, and syntax and appropriate conventions of format (APA for formal/structured papers unless otherwise indicated).
4. Use purposeful structure (usually introduction, development, and conclusion unless otherwise indicated) and provide focus for main points with major and minor connections.
5. Provide appropriate content as described by faculty, support for position and development of an idea.
6. Provide appropriate attribution of all sources both quoted and paraphrased.

Speaking You need to follow these general criteria for speaking for all oral presentations:

1. Connect with audience by speaking clearly without over-reliance on script or memorized input.
2. Establish and maintain context by clearly articulating relationships between ideas and concepts from nursing frameworks and from personal thinking.
3. Word choice, tone and style reflect awareness and respect of the audience's knowledge, values, need for clarity and their right to an opinion.
4. Delivery is effective because speaker projects voice with adequate volume, clearly articulates, has vocal variety, uses gestures and body language appropriately, makes eye contact and projects interest in topic and audience.

Listening: In order to respond analytically as you progress in the nursing program you need to demonstrate the following abilities in listening:

1. Relate your previous experiences and knowledge to the speaker's content and synthesizes the presented information with previous knowledge.
2. Analyze the simple and complex relationships being presented by relating the main points to basic concepts of nursing, and by comparing your own assumptions and perspectives to the speaker's.

Reading: In order to respond analytically as you progress in the nursing program you need to demonstrate the following abilities in reading.

1. Relate previous experience and knowledge to what you are reading and synthesize with the information provided.
2. Analyze the simple and complex relationships within the reading by relating main points of the reading to basic concepts of nursing and comparing your own assumptions and perspectives to the author's.

Self-Assessment: In order to gain insight and promote your personal growth in all aspects of the professional nursing role, you need to judge your performances and plan for remediation. Self-assessment is integrated in all nursing courses as a way to document your progress in meeting the course outcomes. Criteria and methods of feedback will be individualized to the course.

Designing Visual Materials

Four Important Design Concepts

1. Make it BIG
 - a. Use this rule of thumb: If it looks right on the computer screen, it is probably too small. If it looks BIG, it is probably still too small. Aim for outrageously LARGE!!
2. Keep it Simple--Less is Better
 - a. Visuals should only introduce essential elements
 - b. Audience should get the point within 5 seconds after visual appears.
 - c. During that time don't say anything—allow audience time to absorb the message.
 - d. When you have audience's attention, expound on what the visual has to say.
3. Make it Clear
 - a. Include only pertinent information.
 - b. Limit the amount of text on each visual.
 - c. Create useful not artistic visuals.
4. Be CONSISTANT
 - a. Your goal is to educate and inform: don't get sidetracked or confuse the audience.
 - b. Use the same visual at beginning and end of the presentation. At beginning to let audience know where you are going; at the end as a summery.
 - c. Don't switch formats. Once you have selected a general look for color scheme, fonts etc.

Final Rules

1. Begin preparing visuals early.
2. Make back-up copies.
3. Practice the presentation—A LOT!

Producing Audio Materials

1. Keep the message simple.
 - a. Use a script or at very least an outline.
 - b. Provide only essential information—more detailed information can be given in a handout.
 - c. Avoid using jargon unless it is part of making your point.
 - d. Use technical terms only when appropriate for the intended audience.
 - e. Most people have a limited attention span (depending on age and development) so script should be long enough to convey the message but not so long the audience loses interest.
 - f. Speaker should be clear and distinct in pronouncing words. Avoid using monotone speech but don't be overly dramatic unless it is part of making the point.
 - g. Use slides, charts, or illustrations as needed to clarify points.
2. Use high quality equipment for best results.
 - a. Be sure speaker speaks directly into the microphone.
 - b. Avoid unintended background noises when possible.
 - c. For videotapes adequate lighting is an important consideration.

Guidelines for Presentations

1. Oral Communication is different from written communication
 - a. Listeners have one chance to hear your talk and can't "re-read" when they get confused.
 - b. In many situations, they have or will hear several talks on the same day.
 - c. Being clear is particularly important if the audience can't ask questions during the talk.
 - d. There are two well-known ways to communicate your points effectively.
 - i. The first is to K.I.S.S. (keep it simple student). Focus on getting one to three key points across. Think about how much you remember from a talk last week.
 - ii. Second, repeat key insights: tell them what you're going to tell them (Forecast), tell them, and tell them what you told them (Summary).
2. Think about your audience
 - a. What should they gain from hearing you?
 - b. What level of information will best hold their interest?
 - c. What are the key points?
3. Think about your indirect goals
 - a. First, leave your audience with a clear picture of the gist of your knowledge.
 - b. Second, make them want to read more about the subject.
4. Practice in public
 - a. It is hard distilling work down to 20 or 30 minutes.
 - b. Usually have more material to present than time.
5. Prepare, prepare, prepare

SUBJECT: ACKNOWLEDGEMENT OF STUDENT POLICIES

I, _____, have read and reviewed the policies in the Nursing Student Handbook for the Nursing Program and have had the opportunity to have questions concerning said policies answered by a faculty member in the Department of Nursing.

I understand that, as a student in this program, if I need further clarification of the policies, I am free to ask my Faculty Advisor or any faculty in the Department of Nursing.

I further certify that I agree to follow the standards and guidelines outlined within the Handbook. The Handbook is required reading and may be viewed on the Department of Nursing web site at www.suu.edu/nursing.

By signing below I agree to the above statements and also agree that it is my responsibility to stay current with the Department of Nursing Student Policies Handbook. I have been advised that I should review the Student Handbook at least once a semester. It is agreed that if any significant changes are made by the Department of Nursing the changes will be reviewed at the Advisement Group Meeting at the beginning of said semester.

SUBJECT: Student Non-Disclosure Agreement

Southern Utah University has a legal and ethical responsibility to safeguard the privacy of all patients whose records are used for educational purposes and to protect the confidentiality of their health information. In the course of my assignments at Southern Utah University and during clinical experiences, I will come into contact with confidential patient information.

I understand that such information must be maintained in the strictest confidence. As a condition of being a student enrolled in the SUU Nursing Program, I hereby agree that, unless directed by my instructor, I will not at any time during or after my assignments, disclose any patient information to any person whatsoever.

When patient information must be discussed with others in my class during the course of my assignments, I will use discretion to ensure that such conversations cannot be overheard by others who are not involved with the class. I further agree to protect patient records from being seen by others in any setting.

I understand that the violation of this agreement may result in corrective action up to and including discharge from the SUU Nursing Program.

SUBJECT: Unusual Occurrence/Pathogen Exposure Risk Policy & Forms

Student Post Potential Exposure Follow-up Form

To be completed by the supervising Clinical Faculty Member with the involved student(s) at time of incident notification-*check circles as step is completed.*

- o 1. Discuss exposure, how it occurred, and how it could be prevented in the future.
- o 2. Discuss risk for pathogen exposure and recommend immediate follow up with private care provider or insta-care provider.
- o Individuals who have been exposed to infectious pathogens are at risk for an infectious disease. To assess risk, provide timely evaluation of current status, and a baseline for future evaluation and potential interventions it is recommended an exposed individual seeks immediate medical attention. An appointment with a private care provider if immediately available or an insta-care provider is strongly recommended. Any injury sustained by the student while participating in Department of Nursing activities and subsequent medical treatment with all costs associated with care will be the student’s responsibility.
- 3. Facilitate student appointment for immediate follow-up.
- 4. Complete the following with the student:
 - Exposed individual’s name _____
 - Type of exposure _____
 - Date and time of exposure _____
- I have been oriented to SUU’s exposure control plan and I understand I may have been exposed to an infectious pathogens. I also understand the implications of contracting these diseases. I have been encouraged to seek immediate follow-up care by my faculty member to determine whether or not I have contracted an infectious disease.
- I will visit _____ provider.
- Date and time of visit _____
- Student Signature _____
- Faculty Signature _____

Or

I have been oriented to SUU’s exposure control plan and I understand I may have been exposed to an infectious pathogen. I also understand the implications of contracting these diseases. I have been encouraged to seek immediate follow-up care by my faculty member to determine whether or not I have contracted an infectious disease. Despite all the information I have received, for personal reasons, I freely decline to seek a post-exposure evaluation and follow up.

SUBJECT: NURSING STUDENT PROGRAM DEFERRAL Policy & Request FORM

I. **PURPOSE:** To establish criteria and set boundaries for students requesting deferment of their acceptance to SUU’s nursing program. Deferral is for initial acceptance/level one to the program only.

II. **POLICY:** Deferral may be considered upon written student request for such. All requests will be considered individually. Committee decisions will be provided to students in writing and are final. Using the form below the student can submit their request for deferral to the Nursing Administrative Assistant. The deferral request should include their reasons for seeking deferment and the semester they intend to request readmission.

The student should understand that granting of deferment does not guarantee readmission into the nursing program. The readmission request will be based on current application standards, space available and the current admission pool.

The deferral request should be submitted with or before the Nursing Acceptance Form. The date for the nursing acceptance form is posted on said form received with your acceptance letter.

Date: _____ T#: _____

Name: _____

I am requesting to defer my position from the Nursing Program for the following (use separate sheet of paper if needed):

I have been accepted for or am currently enrolled in _____ and would like to defer to _____.

Semester/Year

Semester/Year

I understand the following:

- a. My deferral request will be submitted to the Nursing Administrative Assistant by the acceptance form due date **and is not guaranteed.**
- b. I know that I am **not** guaranteed admission to my desired semester as each readmission case is considered individually.
- b. My readmission request will be based on the current application standards, space available and the current admission pool, by the Admissions and Advancement Committee.
- c. I must submit a written application for readmission to the Admissions Committee prior to the application deadline, as posted on the nursing web-page (www.suu.edu/nursing), for the semester I wish to start using the SUU Department of Nursing Deferral Admission Form (attached).
- e. Deferral admission to nursing level one (1) of the nursing program is granted one time only.
- f. The Pre-licensure program must be completed within five years of official acceptance to the program including withdrawals or termination/readmission.

SUBJECT: NURSING STUDENT PROGRAM DEFERRAL RE-ADMISSION FORM

Date: _____ T#: _____

Name: _____

I am requesting deferral admission to the nursing program for the following (use separate sheet of paper if needed):

My readmission request semester/year is _____

I understand the following:

- a. I know that I am **not** guaranteed admission to my desired semester as each readmission case is considered individually.
- b. My readmission request response will be based on the current application standards, space available and the current admission pool, by the Admissions and Advancement Committee.
- c. This form is my written application for readmission to the Admissions Committee. It has been submitted prior to the application deadline, as posted on the nursing web-page (www.suu.edu/nursing), for the semester I wish to start.
- e. Deferral admission to nursing level one (1) of the nursing program is granted one time only.
- f. The Pre-licensure program must be completed within five years of official acceptance to the program including withdrawals or termination/readmission.

SUBJECT: Functional Requirements for Student Success

Southern Utah University’s Nursing Program values diversity in the students who wish to enter the profession of nursing. Students interested in entering the nursing program must be aware of functional requirements, environmental factors, and psycho social demands that must be met to be considered as a candidate for entry level into the nursing profession.

Functional requirements include, but are not limited to:

- Must be able to independently push, pull, and lift a medically fragile adult when positioning or transferring.
- Must have the ability to palpate body structures and be able to differentiate and report subtle variations in temperature, consistency, texture and structure.
- Must be able to identify and distinguish subtle variations in body sounds such as breathing.
- Must be able to read, understand, and apply printed material which may include instructions printed on medical devices, equipment and supplies.
- Must be able to visually distinguish subtle diagnostic variations in physical appearance of persons served. An example would be “pale color”.
- Must be able to distinguish subtle olfactory changes in physical characteristics of persons served.
- Must be able to walk and stand for extended periods of time.
- Must possess the ability to simultaneously and rapidly coordinate mental and muscular coordination when performing nursing tasks.

Environmental factors include:

- Protracted or irregular hours of work.
- Ability to work in confined and/or crowded spaces.
- Ability to work independently as well as with coordinated teams.
- Potential exposure to harmful substances and/or hazards.

Psycho social demands include:

- Ability to maintain emotional stability during periods of high stress.
- Ability to work in an emotionally charged or stressful environment.

I am aware of the functional requirements, environmental factors, and psycho social demands that must be met to be considered as a candidate for entry level into the nursing profession.

SUBJECT: STUDENT UNDERSTANDINGS

Student Understandings

1. I understand that admission to the nursing program does not mean success.
2. I understand that I will be evaluated on academic as well as clinical skills and professional behaviors.
3. I understand that nursing requires honesty and personal integrity. If either come into question it will prompt faculty to review my standing in the nursing program.
4. I understand that it is my responsibility to keep my clinical documentation current and provide verification to the office manager.
5. I understand the standards for success in the nursing courses and that I am responsible for monitoring my own learning.
6. I understand that the nursing courses will focus on practice not on lecture.
7. I understand that if at any time in the semester I feel unsure about my “grade(s)”, I may request an assessment from the professor.
8. I understand that the course work of this program requires **CONSISTENT** classroom attendance and active participation.
9. I understand that I will be responsible to provide my own transportation to clinical.
10. I understand that I must maintain confidentiality of information I become aware of.
11. I understand that I will be required to complete a random drug screen and that this may occur at any time throughout the duration of the program.
12. I understand that I must act professionally and will show respect to my peers, faculty, and staff.
13. I understand that due to liability issues, I may not participate in hands-on clinical experiences prior to registering for theory courses with a clinical component.
14. I agree to release Southern Utah University from any consequences for any negligent or careless acts committed by **me**.
15. A copy of the curriculum pattern has been given to me and I have read and understand the curriculum pattern and realize that failure to complete the courses as identified in the curriculum pattern will disqualify me from progressing in the program.

My signature indicates that I have read, understand and will adhere to the above student understandings.

SUBJECT: NURSING STUDENT DRUG SCREEN SUBSTANCE RESULT POLICY & CONTRACT

- I. **PURPOSE:** In response to JACHO regulations, healthcare agencies and nursing education programs share the responsibility to ensure all personnel, including nursing students, do not pose a potential risk to patients. Effective January 1, 2005, all nursing students will be required to document a random drug screen. In response to this mandate and effective immediately, The SUU Department of Nursing will require at least one documented, clean, random drug screen as assigned within the first semester/term of the program. SUU Department of Nursing can also request a random drug screen of students at any time while enrolled in the SUU Nursing Program.

- II. **POLICY:** All SUU Nursing students are required to receive and document a clean drug screen test result. A positive drug screen test result will require documentation of a valid, current prescription. Any psychoactive drugs that appear on said results will also require the signed attestation below.

SUU Nursing Student Substance Contract

T#: _____ Name: _____

Drug Identified in Drug Screen: _____

1. I understand that because of the positive drug screen result of a psychoactive drug, it is my responsibility to provide documentation of a valid, current prescription for the drug listed above.
2. I understand that it is my responsibility to use my drug/substance listed above only as prescribed and be free from any effects of this medication when involved in clinical activities.
3. I understand that I may be asked to participate in a random drug screen at any time while enrolled in the SUU Nursing Program and the cost for said drug screen is my responsibility.
4. I understand it is my responsibility to be clear of mind with no intoxicating substances when participating in SUU Nursing clinical activities.
5. I understand that if I am found to show behavior that suggests intoxication or be under the influence of drugs, during a clinical, I will be under review and be subject to removal from the SUU Nursing program.
6. I understand that if I am removed from the SUU Nursing program, I will be responsible for any cost of tuition or other fees associated with the program.

By signing this contract, I understand and agree that I am responsible to attend clinicals only when I am totally free from effects of intoxicating substances.

Southern Utah University Student Nurse Association (SUUSNA) Application

As students in the SUU Nursing Program, you become a member of the chapter of the SUUSNA. This organization represents all students majoring in nursing. SUUSNA has elected officials and is advised by a designated faculty member. SUUSNA is a chartered organization on the SUU campus. To maintain a working fund for service projects & other club activities there will be a minimal one-time fee of \$15. Please pay by check or money order to the SUU cashier's office using the attached form and include your receipt with this application or use U-Pay located on the SUU Nursing website.
