

# WILLIAM HARRISON

## FINANCE VICE PRESIDENT

My name is William Harrison, and I want to support SUU students by running for SUUSA Vice President of Finance for the upcoming 2024-2025 academic year. As the current Vice President of Finance, I have actively engaged in various avenues of student service. Notably, I led the initiative to revamp SUUSA Finance Policies, specifically focusing on refining the framework concerning funding requests and the organizational dynamics of Individual Student Clubs (ISCs) and University Sponsored Organizations (USOs). Among the significant accomplishments of the past year, I had the privilege of partnering with our Chief Financial Officer, Mary Pearson, other SUU administration, and our student body president, Carson Brown, on an ambitious endeavor to enhance and refurbish not only the Student Fitness Center but also the PE building and Student Center.

I am committed to maintaining an open channel of communication with SUU administration, ensuring that student voices are earnestly heard in discussions regarding the expansion of the Fitness Center. I also pledge to provide information to students with complete transparency regarding how their student fees are being used to benefit themselves at SUU and foster an environment of trust and accountability. I firmly believe that the fees contributed by students should be viewed as investments in their future and I promise to continue advocating that every penny paid will directly benefit the student body, thereby enriching their overall academic experience and facilitating their success at SUU to be the person you want to become.

### Key Issues:

- Inform and ensure student collaboration on Gym and Student Center renovations.
- Manage new Finance Policies with ISCs and USOs.
- Utilize student fees to benefit student well-being and health.
- Provide transparency with student fees and their use.
